

AMENDMENT TO THE SPECIFICATION

Please amend the specification as indicated:

Please delete the paragraph (Page 6, line 6 –line 13) as follows:

~~As illustrated in Figure 4, the process of administering conferencing resources in a communications is provided, for at least one embodiment of the present invention. As described above, first message is transmitted to a server, requesting a resource capable of sustaining a conference call, in step 401. Thereafter, the server allocates a network address identifying a resource capable of sustaining a conference call, in step 402. The server transmits a second message to the first terminal having the network address, in step 403. The component units that provide the above discussed functionality are illustrated in Fig. 5, namely the Receiver Unit 501, the Allocation unit 502 and the Transmission Unit 503.~~

Starting at Page 11, line 9, please insert the paragraph as follows:

As illustrated in Figure 4, the process of administering conferencing resources in a communications is provided, for at least one embodiment of the present invention. As described above, first message is transmitted to a server, requesting a resource capable of sustaining a conference call, in step 401. Thereafter, the server allocates a network address identifying a resource capable of sustaining a conference call, in step 402. The server transmits a second message to the first terminal having the network address, in step 403. The component units that provide the above discussed functionality are illustrated in Fig. 5, namely the Receiver Unit 501, the Allocation unit 502 and the Transmission Unit 503.
